Subject: RE: Singular Computing LLC v. Google LLC

Brian,

During our meet and confer, you suggested that Singular would not produce the “output” of the program underlying the FAC, SINGULAR-00012094, because Singular had only committed to producing “output files,” and the “output” of SINGULAR-00012094 is not contained in a file. As we explained, our motion to compel sought “the test code, the test code’s output, and related documents,” see Google’s MTC pg. 1, and we intend to move to compel production of the “test code’s output,” including documents containing any output produced by the test code.

As we also explained, we don’t expect that your response to Google’s Interrogatory No. 18, which relates to the procedures used to conduct the test, will satisfy Google’s concerns related to your failure to produce the outputs from the program SINGULAR-00012094 or the document containing the “Singular test results” in response to our RFP No. 68, which was the subject of our motion to compel.

Thanks,
Anna

[EXTERNAL]

Anna -

Happy to talk tomorrow at 11AM PT. Please circulate a dial in for that time.

Best,

- Brian

Brian,

Since you have yet to respond to our questions, we'd like to meet and confer Friday at 9am or 11am PT. Please let us know if you're available. If Singular's position is that there is no output to produce from the test code relied upon in the FAC, SINGULAR-00012094, we will request sworn declaration explaining (a) the source of the numbers in the complaint, see paragraph 94, (b) whether the image in paragraph 94 came from a document, and (c) if such document no longer exists, whether it was destroyed.

Best,
Anna
